

Nursery:

Nursery service is for infants/toddlers of families/visitors who need it.

We have two nursery areas to serve our families.

The first is the training room. It is located immediately off of the Narthex in the room that has the TV with audio/video hook up. This room is designed for parents to sit with their children.

The second room is across the outdoor breeze way from the training room. (It is the room the 2 and 3-year old children have Sunday school.) This room will have the Harvest toy bucket in it. This is where you will be serving the children as you supervise their free play time, read them books etc. If you don't have any children in the play room, feel free to wait in the training room so you can see/hear the worship service. If parents come into the training room, inform them that you are there to watch the children in the separate play room if the parent would like to return to the sanctuary.

Please try to keep our children from playing with the Growing Tree Learning Center's (they rent the building from us) toys. If they do, please put those toys back. The church's toys are labeled "HOPC."
